ABOUT COLLEGE

Shree Santkrupa College of Pharmacy, Ghogaon, was established in 2004. The courses started with, B. Pharm (2004) followed by Diploma in Pharmacy (2006) and M. Pharm in Pharmaceutics (2011). The institution is affiliated to the Shivaji University, Kolhapur, Maharashtra. The D.Pharm, B.Pharm and M.Pharm courses run by the College are recognized by the Pharmacy Council of India, New Delhi, All India Council for Technical Education (AICTE), New Delhi, and Directorate of Technical Education (DTE), Maharashtra. The college is having Ph.D. Research Centre recognized by Shivaji University, Kolhapur.

ABOUT CONFERENCE

Pharmaceutical industries and academia have different approaches and goals. Pharmaceutical curriculum is mainly oriented towards the conventional needs of an industry which in turn creates a gap between industry and academia. Graduates from pharmacy programs lack adequate skills to meet all industrial needs. In addition to theoretical learning, they should have more exposure to practical experience. In today's world there is a requisite to enhance professional standards of graduates to set their wheels in motion.

This is achievable only through collaboration of industry and academia. Interaction between Academia and industry should be considered as a part of the education and industries should come forward and align the course contents with their needs. With taking proper measures we can ensure to meet industrial expectations without compromising academic goals.

With the above overview and in order to improve the situation, Shree Santkrupa College of Pharmacy, Ghogaon, is organizing a **Two Days National Conference on Pharma Tech Conclave: Industry Insights**, an initiative for bridging the gap between academia and industry. The outcome of which will be professionally competent graduates.

About College:

Shree Santkrupa College of Pharmacy, Ghogaon, is located on the Karad- Ratnagiri highway at a distance of about 22 km from Karad.

Shree Santkrupa College of Pharmacy, Ghogaon, was established in 2004 with the start of B. Pharm course (2004); D. Pharm (2006); followed by M. Pharm (2011). The college is recognized by Shivaji University, Kolhapur as a Ph.D. Research Centre too. The institution is affiliated to Shivaji University, Kolhapur. The UG and PG courses are recognized by: Pharmacy Council of India; All India Council for Technical Education (AICTE) and Directorate of Technical Education (DTE), Maharashtra.

Biotechnology and Biopharmaceuticals: A Primer

In 1972, with the combination of DNAs of two organisms biotechnology began. This spurred interest in the field and intense research by *Genetech* led to the release of Insulin to the market in 1982. The global biologics market is growing rapidly and is expected to grow at a rate of 10.5% in 2018-23. *Novartis* and *Bristol-Mayers-Squibb* have already invested around 700 and 900 million dollars respectively in their manufacturing.

The rise in the prevalence of chronic diseases, loss of patent exclusivity, growing demand and higher acceptability for innovative therapies are driving the growth. Popularity of biologics has especially increased for chronic diseases like RA, Crohn's disease, Psoriasis and other auto-immune disorders and touched sales target of 18.5 billion dollars in 2016. Six of the top eight drugs were biological in that year. *Biocon* is projected to earn \$ 377 million in US and European markets in 2021-22. Other fields like oncology, rare diseases, infectious diseases, cell therapy, gene therapy also offer huge opportunities.

The Indian biotech industry holds about 3 % share of the global biotech industry and is among the top 12 global biotech destinations. The Indian biotech industry, comprising of about 800 companies, was valued at US \$ 51 billion in 2018. It is expected to grow at 14.5% in future. Recognizing the opportunity, Indian government is encouraging the growth of the industry through huge grants for research and start ups. It is up to us to utilize the opportunity and get benefited. Here is an opportunity, come and explore more.

Shree Santkrupa College of Pharmacy, Ghogaon

Organizes

**Two Days' National Webinar on
Drug Development: From Bench to Bedside
20th & 21st June, 2020**

About College:

Shree Santkrupa College of Pharmacy, Ghogaon, was established in 2004. The courses started with, B. Pharm (2004) followed by Diploma in Pharmacy (2006) and M. Pharm in Pharmaceutics (2011). The institution is affiliated to the Shivaji University, Kolhapur, Maharashtra. The D.Pharm, B.Pharm and M.Pharm courses run by the College are recognized by the Pharmacy Council of India, New Delhi, All India Council for Technical Education (AICTE), New Delhi, and Directorate of Technical Education (DTE), Maharashtra. The college is having Ph.D. Research Centre recognized by Shivaji University, Kolhapur.

About National Webinar:

We are familiar with the events that take place in a lab during initial stages of drug development, viz., synthesis and biological evaluation of a new chemical entity. If promising, the next levels of activities spring up. This webinar focuses just on those aspects. They include: evaluation of drug formulation for its desired properties; filing for intellectual property rights; making an application for conducting clinical trials; generation and submission of safety and efficacy data for market release; addressing and managing scale up issues and release of the drug to market.

Experts from reputed institutions like MIET (Meerut), Amity University (Noida), Mankind Research Centre (Gurgaon) and Virchow Biotech (Hyderabad) will be discussing issues related to: development and evaluation of chemical / herbal formulations for ocular and nasal / oral drug delivery; submission of ANDA with USA and Indian regulatory bodies; addressing and managing industrial scale-up issues and methodology for patent filing.
